JOURNAL OF ANATOMY

CONDUCTED ON BEHALF OF THE ANATOMICAL SOCIETY
OF GREAT BRITAIN AND IRELAND BY

L. E. H. ASHTON
D. BULMER
R. E. COUPLAND
M. H. DAY
M. J. T. FITZGERALD
H. J. GAMBLE (*Associate Editor*)
J. W. S. HARRIS
R. L. HOLMES
F. R. JOHNSON
R. M. H. McMINN
G. J. ROMANES
J. SCOTHORNE
J. J. PRITCHARD (EDITOR)

VOLUME 127
SEPTEMBER–DECEMBER 1978

CAMBRIDGE UNIVERSITY PRESS
CAMBRIDGE · LONDON · NEW YORK

Contents

PART 1 SEPTEMBER 1978

PAGE

Quantitative studies on the maturation of central and peripheral parts of individual ventral motoneuron axons. II. Internodal length. By J. P. FRAHER 1

Ultrastructural aspects of the transformation of muscle fibre type by long term stimulation: changes in Z discs and mitochondria. By S. SALMONS, D. R. GALE and F. A. SRÉTER 17

The nature and occurrence of the acrosome reaction in spermatozoa of the domestic pig, *Sus scrofa*. By DANIEL SZÖLLÖSI and R. H. F. HUNTER . 33

Neuronal numbers in the superior cervical ganglion of the neonatal rat. By D. C. DAVIES 43

The articulations of the neurocranium in the postnatal skeleton of the domestic fowl (*Gallus gallus domesticus*). By D. A. HOGG . . . 53

Aspects of the human pharyngeal hypophysis in normal and anencephalic fetuses and neonates and their possible significance in the mechanism of its control. By PHILOMENA MCGRATH 65

A longitudinal radiographic study of the growth of the rat skull. By P. C. R. HUGHES, J. M. TANNER and J. P. G. WILLIAMS 83

The pattern of lymphatic drainage of the rat testis. By R. PÉREZ-CLAVIER and R. G. HARRISON 93

A quantitative study of peripheral nerve fibres in the mouse following the administration of drugs. Age changes in untreated CBA mice from 3 to 21 months of age. By A. STANMORE, S. BRADBURY and A. G. M. WEDDELL 101

Muscles and bones of large and small mice compared at equal body weights. By A. C. B. HOOPER 117

The T-tubule system in the specialized and general myocardium of the rat. By A. S. AYETTEY and V. NAVARATNAM 125

Observations on the development of the connective tissues of developing human nerve. By G. Y. MUSTAFA and H. J. GAMBLE 141

The effect of position on the migration of muscle. By PHILIP G. GRANT . 157

Pyramid-like basket cells in the granular layer of the dentate gyrus in the rat. By LÁSZLÓ SERESS 163

The fine structural organization of the cuneate nucleus in the monkey (*Macaca fascicularis*). By C. Y. WEN, W. C. WONG and C. K. TAN . 169

Ultrastructural localization of endogenous peroxidase in human parotid and submandibular glands. By A. RIVA, P. PUXEDDU, M. DEL FIACCO and F. TESTA-RIVA 181

PAGE

BOOK REVIEWS 193

PROCEEDINGS OF THE ANATOMICAL SOCIETY OF GREAT BRITAIN AND IRELAND, MARCH 1978 195

PART 2 OCTOBER 1978

New features in the development of the submucosal gland of the respiratory tract. By J. J. SMOLICH, BERNICE F. STRATFORD, J. E. MALONEY and B. C. RITCHIE 223

Ultrastructure of the hypothalamic neurosecretory nuclei of the dormouse (*Eliomys quercinus* L.) in the awakening and hibernating states. By CELIA MACHÍN-SANTAMARÍA 239

Polynesian mandibles. By PHILIP HOUGHTON 251

Continuity of electron histochemically demonstrable substances in the basal lamina, the ground substance of the connective tissue and the intercellular spaces of epithelial cells of rat gingiva. By A. H. MELCHER and J. CHAN 261

The effect of immune lymphocytes on reaggregation of fetal mouse tissues. By A. E. SZULMAN and M. H. JOHNSON 273

The topography of root fibres within the sciatic nerve trunk of the dog. By TEIZO UEYAMA 277

Ultrastructural evidence concerning the mode of secretion of electron-dense granules by Clara cells. By SHERMAN F. STINSON and CLAYTON G. LOOSLI 291

The ducts of Brunner's glands. By T. TREASURE 299

The architecture of cancellous bone. By INDERBIR SINGH 305

Histoenzymological analysis of mesencephalic auditory tegmental and cranial nerve nuclei in the frog (*Rana tigrina*). By P. P. SOOD 311

Reinnervation of the rat adrenal medulla transplanted in the anterior eye chamber. By HISATAKE KONDO 323

Changes in the surface fine structure of choroid plexus epithelium following chronic acetazolamide treatment. By NABIL A. AZZAM, S. ROY CHOUDHURY and J. MICHAEL DONOHUE 333

Fibre numbers and sizes in the inferior alveolar nerve of the cat. By G. R. HOLLAND 343

Mitotic rate of the rat's thyroid gland during hypertrophy induced by an antithyroid agent (carbimazole). By OLGA REDMOND and A. R. TUFFERY 353

Electron microscope observations on the changing relationships between unmyelinated axons and Schwann cells is human fetal nerves. By H. J. GAMBLE, J. FENTON and GRETA ALLSOPP 363

PAGE

The structure of the germinal disc region of the hen's ovarian follicle during the rapid growth phase. By M. M. PERRY, A. B. GILBERT and A. J. EVANS 379

Effects of intra-articularly administered corticosteroids and salicylates on the surface structure of articular cartilage. By A. M. LUTFI and K. KOSEL 393

The mean fibre area of the semitendinosus, diaphragm and pectoralis transversus muscles in differing types of horse and dog. By H. M. GUNN . 403

The ultrastructural organization of the contractile peripheral protein layer of the human erythrocyte membrane. By ALAN H. TIMME . . . 415

Topographical organization of the striatonigral pathway revealed by anterograde and retrograde neuroanatomical tracing techniques. By IAN F. TULLOCH, GORDON W. ARBUTHNOTT and ANN K. WRIGHT . . . 425

The distribution of the chorda tympani in the middle ear area in man and two other primates. By D. H. BOSMAN 443

PART 3 DECEMBER 1978

On the structure of the vascular body in the domestic fowl. By V. K. GUNAWARDANA and M. G. A. D. SCOTT 447

Changes in sarcomere length and physiological properties in immobilized muscle. By P. E. WILLIAMS and G. GOLDSPINK 459

The relationship of the locus coeruleus to the amygdala in the cat. By W. W. KAELBER 469

The ultrastructure of rat palatal mucosa maintained in organ culture. By M. W. HILL 475

The structure and ultrastructure of the renal tubule of the urodele amphibian, *Amphiuma means*. By R. H. CLOTHIER, R. T. S. WORLEY and M. BALLS 491

The development of the rods in the tapetal cells of the cat. By M. L. LUCCHI, E. CALLEGARI and R. BORTOLAMI 505

The analysis of normal stepping movements as a possible basis for locomotor assessment of the lower limbs. By D. W. GRIEVE, DOROTHY LEGGETT and BARBARA WETHERSTONE 515

Effect of hydroxydopamine on the small dense-cored vesicles in the cholinergic nerve terminals of the rat bladder. By A. D. HOYES and PAULINE BARBER 533

A simple and reliable method for the silver impregnation of nerves in paraffin sections of soft and mineralized tissues. By J. E. LINDER . . 543

Surface features of exfoliated vaginal epithelial cells during the oestrous cycle of the rat examined by scanning electron microscopy. By GRACE M. CENTOLA 553

PAGE

Serotonergic projections to the suprachiasmatic nucleus and the median eminence of the rat: identification by fluorescence and electron microscope. By KATSUYA AJIKA and JUNZO OCHI 563

A generalized mechanics of articular swings. I. From Earth to outer space. By M. A. MACCONAILL 577

Energy absorbing capacity of rat tail tendon at various ages. By H. NATHAN, L. GOLDGEFTER, E. KOBYLIANSKY, M. GOLDSCHMIDT-NATHAN and G. MOREIN 589

Histochemical Type I fibres in the soleus of the rat. By A. DEKLEVA and A. ŠIRCA 595

On the ultrastructure of modified Sertoli cells in the terminal segment of seminiferous tubules in the boar. By D. I. OSMAN 603

Differences in the histochemical properties of skeletal muscles of different breeds of horses and dogs. By H. M. GUNN 615

BOOK REVIEWS 635
